## WORKSHEET-2

### D. Read the text and answer the questions.

Do you know how people travelled before cars? They rode horses! Some horses were hooked up to carriages. These carriages had covered tops. They carried people. They were slow, so they didn't travel far. One day a man from Germany put an engine on a carriage in 1886. It was the first petrol powered vehicle. It was fast, so it could travel far.

The first cars looked a lot like carriages. The seats were high off the ground. They had very tiny wheels. The difference was that they had engines. Carriages had horses. People called the first cars horseless carriages.

1. In what ways were the first cars similar to carriages? Write two of them.

.....  
.....

2. In what ways were the first cars different from carriages? Write two of them.

.....  
.....

3. Why did people call the first cars 'horseless carriages'?

.....  
.....
