B. Complete the sentences with the words in the box.

birthday 6 February 365 unlucky 24 days 12 7 calendar 4 leap

There are (1) days in every week. There are (2) months in every year. There are (3) hours in every day. But there isn't the same number of (4) in every month. There are (5) days in a regular year. But actually, in addition to those days, a year has (6) hours more. What do we do with these extra hours? We can't really add that extra quarter day to each year, so every (7) years, we add an extra day to the year, and we call it a (8) year. The extra day is always at the end of (9), so it has 29 days instead of 28. If your birthday is on a leap day, you are very (10) This means that your (11) comes only once every four years. Leap years are very important. They keep the (12) correct.
